Muck sticky music is a way you can escape reality. Music that is raw and real, and can make a bad day good again. If there is a frown your music makes it turn upside-down. ❤️

It's not just the music it's also your energy. Your energy is contagious, when I down or feeling blue all I have to do is find some muck sticky and my anxiety is lifted away. The fact that I love smoking marijuana just makes the music way better. Oh yeah I love the clothes ❤️.
